The Proposition About to Drop Through on Account of Greedy Land Owners

Rumors and rumors have been rife for some t.m : about the building of a large hotel on the site formerly occu-pled by the Grand Central hotel and the Old Central, both of which buildings were burned down some years since. Mr. Sneldon, owner of the sheldon block, was the promoter of the hotel enterprise and he secured sixty day options on the land and was maturing plans or the building. The only thing that stood in the way was that the owners of the track of land formerly occupied by the Old Central held FOR RENT.-Nicely furnished front their property at such a high figure that the consumation of a deal has been made impossible. Mr. Sheldon was an arcade so that south and north El Paso streets could be connected and donate this much of the property to the public, but the owners of the property wanted \$70,000 and this high figure has about made the deal imprac-

El Paso has long suffered from the effects of land owners holding their Ladies ready made wrappers in a effects of land owners holding their great variety of materials from 75c. to property at such high values that the growth of the town has been retarded, and the trouble can only be overcome by the tax assessor next year placing the property at a higher value. This year the tax valuation of the old Central property was placed at \$36,000 and the agents told the board of equalization that they would take that amount for the property, but it seems that since they have had a chance to sell

they wanted twice that sum. The building of a hotel like that proposed by Mr. Sheldon and his associates in business would have been o ornament to El Paso and a credit to the southwest. The intention was to build a hotel that would have cost any where from \$250,000 to \$500,000, but on account of the greed of land owners the deal is off and El Paso will have to

Besides the hotel building itself the public would have been benefited by the opening up of North El Paso stree and the arcade that was intended to be built would have proved a busy mart for small dealers and specialists in trade. It would have been a place for used for that trade.

On the Fire Horses.

"Frank," the old fire horse that fornerly worked on the truck, but who has since been pensioned off, was department. He has apparently recoved his health, but looks thin and lightweight. However, he has forgotten none of his old training and just after he was brought in last night the gong was sounded and he had a fight with "Badger" for his old place in harness. He is a sensible, quick and willing horse and is the pet of the department and all the boys were glad to see him and they all petted and caressed him fully, as through he were human, and he enjoyed the pe ting as much as the fire-men who petted him did. He may be examined and put back in harness, as "Charley;" one of the big roans of the engine team, has been suffering from rheumatism and it is really cruelty to work him in his present condition, although he is always willing and when warmed up does not show siges of his who are well to do and the body is being held by the Caldwell Undertaking kept at the department for just such company subject to message from emergencies and if "Frank" is fit for use he would make a first class substitute for the other horses of the department when they are sick.

Christian Eudeavor Convention. EDITOR HERALD:-Dear Sir-My letter in the Christian Endeavor Banner must have been ambiguous, because in closing your article you say credit is due me for having landed the convention for El Paso in '99, which I am sorry to say is not the case. My intention is to make an earnest effort to secure the convention for El Paso, and my letter being published in the official organ of the State Christian Endeavor Union was understood by all Christian Endeavors of Texas as a bid for their support to help me in the work of inducing 1,500 or more of the great Christian Eodeavor army of Texas to visit El Paso in June, 1899 must present at the Dallas convention, June, 1898, my ressons for wishing El Pa-o to be the place of convention for the following year, with a written agreement from each railroad entering here, as to the round trip fare they will here, as to the round trip fare they will guarantee. It is my intention also, if possible, to induce the New Mexico Christian Endesvor convention of '99 to meet in El Paso with the Texas convention. As was before stated in your paper, Christian Endesvorers have embodied in their articles of faith a firm plank that resolves and one to meet plank that resolves e ch one to meet his or her own expenses, and 1,500 or more people who come here with a de-sire to help the city and ask nothing of the city in the way of entertainment will not only be morally a benefit, but the financial conditions will be better for their having been here. In closing I will assure you that Chief of Police Lockhart will not be compelled to in-crease his force during the convention.
